Subject: Microsoft Settlement

To Whom it May Concern

In my opinion, the proposed settlement between the US Justice Department and Microsoft, Inc. is a woefully insufficient remedy. Microsoft has engaged in a decade of anti-competetive behavior, and found guilty as such. In addition to severe restrictions on future marketing and licensing activities, Microsoft must be forced to cease the practice of 'bundling' of unrelated software applications, and furthermore, Microsoft should be required to pay TREBLE DAMAGES to every corporation that it has unfairly harmed through its illegal practices.

Thank you
